Dear Carla:

Over the 2006 holiday season, WJXA decided to play all Christmas music. This is not the easiest task for a Programmer, but it is definitely rewarding. At Mix, we spend a great deal of time searching for titles to add into rotation. This year, we were fortunate to have some new music to choose from. One of our favorite cuts came from Michele Pillar. The title track from her "I Hear Angels Calling" CD proved to be an instant hit with our audience and generated plenty of phone calls. We also played 2 other Christmas tracks of hers that fit in seamlessly with our holiday product.

Michele's voice is such a perfect match for what we do in AC radio and the production on her songs is always top notch. We're lucky to have her here in Nashville!
